2014 <sup>4</sup>	60	11%	484	11%	266	10%	<b>811</b>	<b>11%</b>

Note 1: Premature births have a gestation age less than 37 weeks. Please refer to the technical definitions starting on page 36 for more information.

Note 2: National data reports teens as 15-19; however, births to teens younger than 15 did occur but are small numbers and not reported.

Note 3: Percentages are based on the total number of births recorded in the year. Percentages are rounded and may not add to 100% due to rounding error.

Note 4: In a few rare cases, mother's age was not recorded for the event; therefore, mother's age totals will not match county totals.
